

Sophos firewall a yönetici kimlik bilgilerimde login oluyorum. İlk olarak açılmayan ve bloklanan sitem hangi kategoride bilgileri nelerdir "Diagnostics" sekmesi ve "policy tester" kısmından kullanıcılarıma uyguladığım genel policy i seçerek test ediyorum. Aşağıda görüldüğü üzere test edilen web sitesi Lifestyle kategorisinde ve "YOUTUBE OPEN_WEB" isminde oluşturduğum policy de engelli.

The screenshot displays the Sophos Firewall Policy Tester interface. On the left, the 'Connection details' section shows the URL 'https://...nt.com.tr/', the user 'Authenticated user', and the test method 'Web policy only'. The 'Web policy' dropdown is set to 'YOUTUBE_OPEN_WEB'. On the right, the 'Policy test' section shows the connection details: Test time '13:17:55 Monday', Destination 'https://...com.tr/', Destination IP '118', port '443, TCP', and User 'User unauthenticated'. The 'Result' section shows 'Blocked'. The 'Web protection' section shows the category 'Travel' and the policy 'YOUTUBE_OPEN_WEB'. The 'Matched web rule' table shows the user 'Anybody' and the activity 'Lifestyle' (highlighted with a red box). The 'Action' column shows 'Blocked' (highlighted with a red box). The 'Constraints' column is empty. A red arrow points from the 'Lifestyle' activity to the 'Blocked' result.

Users	Activities	Action	Constraints
Anybody	Lifestyle	Blocked	

Activities: Activity 'Lifestyle' contains category 'Travel'.

Test işlemimi tamamladıktan sonra arayüzden “WEB” sekmesinden “CATEGORIES” seçeneğine geliyorum. Yeni bir kategori eklemek için “Add” butonuna tıklıyorum.

Karşıma gelen ekrandan oluşturmak istediğim kategoriye bir isim veriyorum. Ben bunu sürekli kullanacağım Ara Ara bu şekilde engelle takılan adreslere izin vermede çok kolaylık sağlıyor.

Kategorime "İZİNLİSİTELER" adını veriyorum ve izin vermek istediğim web adresinide basında http, https veya www olamana aaa.com olarak yazıyor ve + tuşuna tıklayıp aşağıdaki Save butonu ile işlemimi tamamliyorum.

The screenshot shows the 'Add web category' page in the Sophos Firewall management interface. The 'Categories' tab is active. The 'Name' field is set to 'İZİNLİSİTELER'. The 'Domain' field is set to 'ilant.com.tr/'. The 'Save' button is highlighted with a red box. A red arrow points from the 'Save' button to the 'Domain' field.

Sonraki adımda “WEB” sekmesinden “Policies” kısmına geliyorum ve daha önce oluşturmuş olduğum “YOUTUBE_OPEN_WEB” kuralımın üzerine gelip + tuşuna tıklıyorum. Sonrasında default olarak düzenlenmemiş kural objemiz gelmiş oluyor. “All web traffic” seçeneğinin yanındaki ok işaretine tıklıyorum.

Edit additional settings

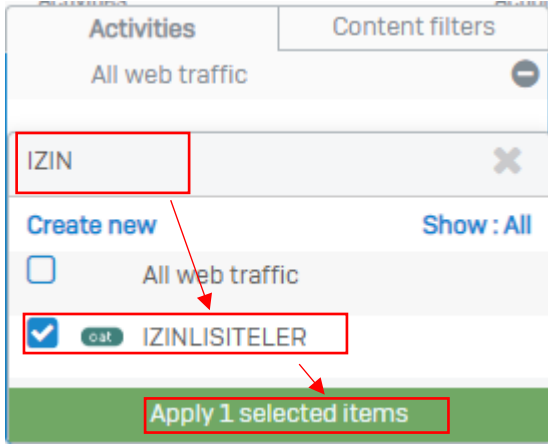

Karşıma gelen menüden yukarıdaki adımlarda oluşturduğumuz “İZİNLİSİTELER” kategorisini seçmek için “Add new Item” butonuna tıklıyorum.

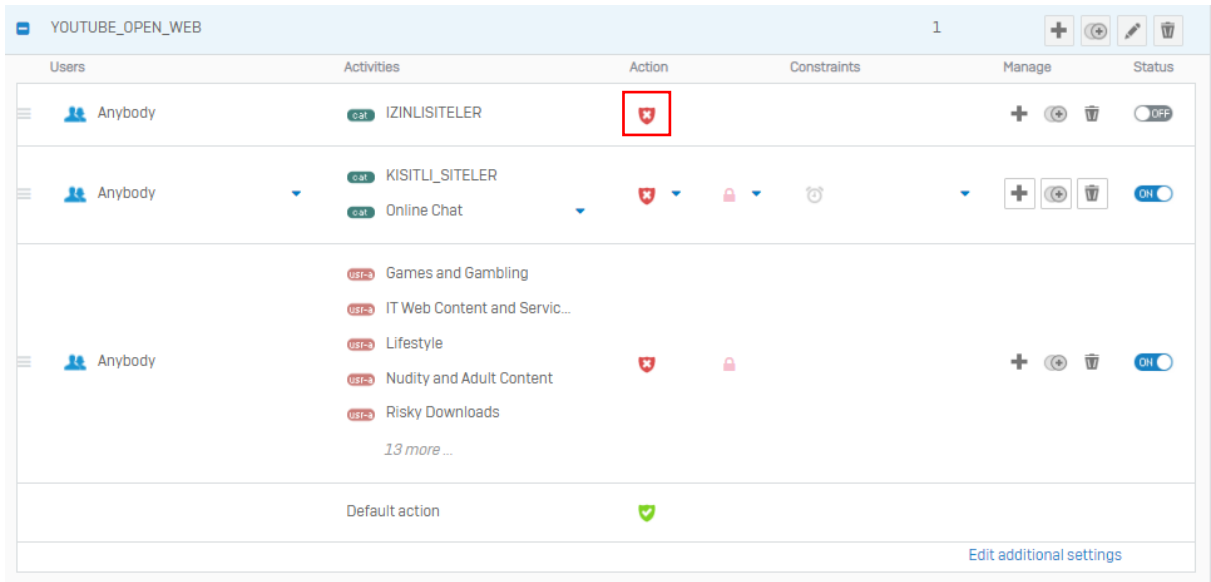

Karşıma gelen menüden tüm seçenekleri görmek için “Show only” seçeneğinden “View all” butonuna tıklıyorum.

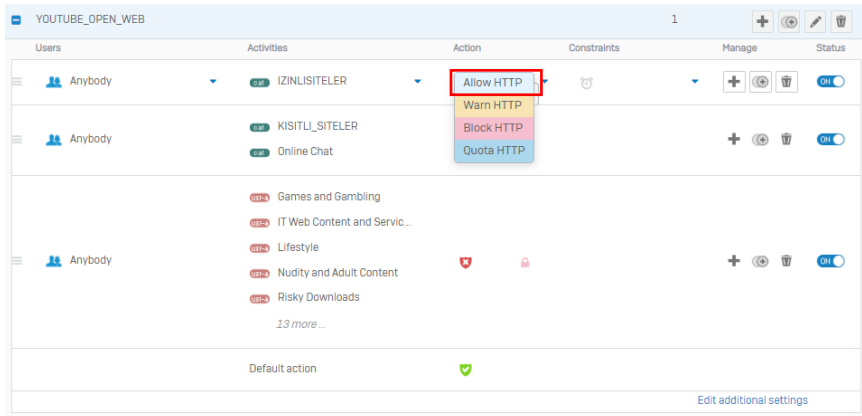

Karşıma gelen menüden arama kısmına oluşturmuş olduğum kategorinin ismini yazıyorum. Gelen seçeneklerden oluşturmuş olduğum kategoriye seçiyor ve **"Apply 1 selected items"** seçeneğine tıklıyorum.

Sonraki adımda karşıma gelen obje menüsünden oluşturmuş olduğum kategoriye izin vermek için **"Action"** kısmındaki kalkan işaretine tıklıyorum.

Karşıma gelen seçeneklerden **"Allow http"** seçeneğini seçiyorum. Aşağıdan **Save** diyerek işlemimi tamamlıyorum.

Sonraki adımda yine ana menüden “Diagnostics” seçeneğinden “Policy tester” sekmesinden web sistemi kontrol ettiğimde oluşturmuş olduğum kuralın başarılı bir şekilde çalıştığını teyit ediyorum.

Web sistemi oluşturduğumuz IZINLISITELER web kategorinden geçmektedir.

The screenshot displays the Google Cloud Platform Policy Tester interface. The browser address bar shows the URL: https://192.168.1.1:4444/webconsole/webpages/logging/EventViewer.jsp?selectedTab=policy_test&csrf=spe520daghkr4tktnsu5qvk7hp. The page has two tabs: "Log viewer" and "Policy test", with "Policy test" being the active tab.

On the left, the "Connection details" section includes fields for URL, User, Time and day, Test method, and Web policy. The "Test" button is highlighted in blue.

The main content area shows the test results:

- Connection:** Test time: 13:18:55 Monday; Destination: https://...ant.com.tr/; Destination IP: ...18, port 443, TCP; User: User unauthenticated.
- Result:** Allowed (highlighted with a red box).
- Web protection:** Category: IZINLISITELER; Web policy: YOUTUBE_OPEN_WEB.
- Matched web rule:** A table showing the rule details:

Users	Activities	Action	Constraints
Anybody	IZINLISITELER	✓	🔒
